

DO YOU QUALIFY FOR CARE?

Inpatient rehabilitation services are provided to medically stable patients 18 years of age or older who:

- Are motivated and have the ability to participate in therapies at least five days per week for a minimum of three hours per day
- Have a 24-hour per day need for rehabilitation nursing and medical care
- Have a potential for functional improvement
- Require multiple therapy disciplines of occupational, physical or speech therapy.

To request a consultation to be evaluated for participation in inpatient rehabilitation please call, 810-216-3160.

INPATIENT REHABILITATION
helping you become a better you

Lake Huron
Medical Center

OUR MISSION

The Lake Huron Medical Center Inpatient Rehabilitation program is committed to restoring the people we serve to meaningful lifestyles by providing select, innovative and efficient services in a coordinated continuum of care.

Our Inpatient Rehabilitation program provides comprehensive, specialized care that brings our patients back to their maximum level of function quickly and effectively.

OUR PROGRAM

Inpatient Rehabilitation services are provided in a 10-bed unit and the staff have dedicated themselves to providing comprehensive, state-of-the-art services that help patients attain their highest level of functioning. The standards for each plan are based on the patient's goal for independence. When needed, home evaluations in preparation for discharge are also provided.

YOUR CARE

During your stay in the Lake Huron Medical Center Inpatient Rehabilitation unit, you will be involved in a daily program that will include activities designed to help you meet your rehabilitation goals. As an integral member of the team, you will be a part of establishing those goals.

restoring function promoting independence

YOUR TEAM

Your team is led by a Physiatrist – a medical doctor who specializes in rehabilitation. The Physiatrist and the team will work with you to determine a plan of care to achieve your goals based on your unique needs.

Other members of the team include:

- Rehabilitation Nurses
- Occupational Therapists
- Physical Therapists
- Speech/Language Pathologists
- Social Worker
- Case Manager
- Referral Coordinator
- Nutrition Counselor or Registered Dietitian

IS INPATIENT REHAB RIGHT FOR YOU?

Inpatient rehabilitation isn't for everyone. However, in many cases, it is a great option to those who have been diagnosed with the following:

- **Stroke (CVA)**
- **Brain Injury**
- **Amputation**
- **Spinal Cord Injury**
- **Major Multiple Trauma**
- **Hip Fracture**
- **Multiple Sclerosis**
- **Parkinson's Disease**
- **Guillain Barre**
- **Other progressive neurological impairments**

Comprehensive, specialized care to bring you back to your maximum level of function quickly and effectively.
